# Del Ray Computer Deck

**An Authorized Version! Routine goes like this...** A spectator shuffles and cuts a regular deck of cards. A card is freely selected. The performer gives the deck a shuffle and cut. The spectator is then asked to cut the deck into four piles. The computer deck is handed to the spectator who then places the deck on any pile. If nothing happens, the computer deck is placed on another pile. This continues until

the deck comes to life. Lights flash, beeping sounds emanate from the deck and flashing random numbers appear. The sequence stops with a number. The computer deck is set aside and the spectator counts down to the specified number to reveal the selected card.

**Del Ray's routine is described in the book Del Ray – America's Foremost, which is included as a bonus.**

## Features of the Del Ray Computer Deck:

Modernized electronic design of circuit board with integrated circuit chips and micro surface mount electronic components. When the switch is turned on the digital display briefly flashes the preset number as a visual reminder. When unit is activated the 18 second cycle audible and visual features include 4 bright red flashing LEDs, variable

beeping sounds, double digital display flashes parallel rolling bars, perpendicular rotating bars, then rapidly flashing random digits flash on the display panel finally stopping on the preset number. The final displayed number corresponds to the selected card location in a pile and remains on until the deck is lifted off the pad.

The deck automatically resets for next performance when it is removed from the selected card pile. Items supplied with package. ## J.C. Moore Presents... **Illumini Spirit Light**

When we saw this beautifully hand crafted item, we had to try to bring it into our exclusive line.... We're very happy to have done so! **Please note these units are custom made in batches of 3 units. Therefore, fulfillment can take up to 4-6 weeks.**

**From J.C. Moore's...**Some years ago, a somewhat weathered black wooden box came to be in my possession. The box contained a number of books, journals, and items of curiosity. Though I cannot say for certain who the original owner of the box was, or who its contents may have belonged to, I do have my suspicions. Some of the items contained within were in better condition than others. One can't help but wonder what journeys this box or its contents must have had before coming into my hands. Among the books, found folded and tucked away, were several loose

pages containing information regarding exotic woods from the far reaches of Africa, and visits with Shaman, Spirits, and etheric energy. Along with these pages, there was a plan for a device indicating that said device might somehow react to influences from the other side...the "Spirit World."

From these pages, the **Illumini Spirit Light** was carefully hand-crafted. No expense or detail was spared. **The end result: an etheric energy-detecting device that is incredibly sensitive to unseen electrical fluctuations.** Created using the materials described with precise measurements as calculated, it is not only a wonderful device for use, but also beautiful to simply behold, with the stylings of early scientific equipment that combine artistry with function.

# Larry Barnowsky Presents...

## Rings Of Alexandria

An ancient counting device originally discovered in the ruins of The Great Library of Alexandria is introduced. The device must be set aligned to the North for it to function. Once that is done, a deck of cards is shown and given a genuine riffle shuffle. The magician turns his back or is blindfolded and gives instructions to

two spectators. A deck of cards is freely cut and one spectator places any number of cards into his pocket. The remaining cards are dealt into 4 piles and any leftover cards are added to the pocketed cards. The cards on the table are divided between the two spectators. The magician instructs each spectator to deal cards into a certain number of piles (one deals 5 piles) so there are equal numbers in each pile. If there are any leftover cards they each set them aside. Using the number of leftover cards, each spectator moves rings on the ancient device from the left side to the right. Once that's done, the ring on the left will be the only one showing an engraved number. The spectator reads that number aloud and then counts the number of cards in his pocket; the **number** of cards in the pocket **exactly matches the number engraved** on the ring. As an added climax, the magician turns around and tells the spectator the exact sum of the values of all the cards that were in his pocket.

The cards and the device can be thoroughly examined. No memorization or difficult calculations are required. The device provides all the information to know how many cards are in the pocket and the sum of the card values too. You can concentrate on your presentation since the effect essentially works by itself. No Forcing. No Equivoque. No Peeking. No sleight-of-hand. Works 100% of the time. Can be done with one spectator if desired

The **Rings Of Alexandria Kit** includes the following: The hand-crafted apparatus made from maple, select pine and reed. Rings are engraved with hand-stamped numbers. The required denominations of 52 play money bills. A special deck of cards which can be thoroughly examined. Full script included with the 10 page color illustrated instructions (**five versions explained in detail**). Step-by-step explanations show how to easily perform all four effects. Attractive carrying box to hold all props. Each device is stamped on the bottom with a number indicating that this is a limited edition run. **36 sequentially numbered units will be made.**

# Truly Wonderful

## Pete Biro Presents... Creamer

Imagine a simple demitasse cup, a spoon and a creamer like you find at coffee shops and restaurants and creating a simple to do, highly entertaining routine.

It's a perfect routine for the restaurant worker. Everything fits in your pocket and there's a minimal sleight involved, which he simplified, as you will see on

the included DVD. The DVD shows three different situations performing at spectator's tables, and a thorough explanation of all you need to know.

You receive the Demitasse Cup, a spoon and two specially-prepared cream containers (nothing to go sour, as cream has been replaced with a solid component). There are two hidden gimmicks that help make it work with ease. Props come boxed and includes a red carrying bag, a DVD with three performances and full instructions, as well as a set of illustrated printed instructions (DVD's are great but I think having a quick printed reference as well is the best). In addition, a printed set of instructions is included with added ideas and suggested final loads.

## Magic Smith Presents... Flash Tray

**Mentalism's Hottest Weapon**  
**Flash Tray** allows you to introduce the most dramatic element, FIRE, in an ingenious, motivated way. Items placed inside of it inexplicably burst into flames at your command.

**Flash Tray** offers you an array of possibilities. Included are six scripted routines from the brilliant mind of Christopher Rose, along with 12 other routines.

**Flash Tray** can be performed close-up and surrounded. It works on any surface and can even be held by the spectator during performance. Custom designed from the ground up—its designed for years of service. **Examinable. Remote Control. Rechargeable. Flash Paper Included. Eighteen Routines included.**

# What You See...

## Materialization Chamber

Loosely based on a concept introduced many years ago by U.F. Grant, Rich Hill's Materialization chamber takes the effect a giant step further. The idea came from magician, Brian Bailey, who said, "Wouldn't it be cool if the box could be examined after the effect?" Well, here you go!

A trendy looking box is shown to be thoroughly empty. Accompanying the box is a clear tube, which is also shown empty and may be examined. The empty tube is placed into the top of the box, the doors are immediately opened and the tube is filled with silks! (Produce anything that will fit in the tube—silks, flowers, fruit, you name it!) After the effect, both doors are opened to reveal the tube full of your production items. **Now, here's the kicker...the box can then be examined!** This is a very versatile production device, easy to perform, a beautiful design and built tough. This effect is AMAZING!

### DIMENSIONS OF ITEM:

Left to Right Top: 8.5-inches  
Front to Back: 5.5-inches

# Card Classics

## Joe Riding's Three Card Four

**"The Only Three Card Trick  
In The World Using Four  
Cards!"**

A true professional classic with the both Fred Kaps & Ken Brooke Routines.

Commercial card tricks are still very hard to find despite the fact that card experts invent them almost daily. Visible card effects are still

harder to come across. This uses JUMBO Bicycle cards and is visible from start to finish. This effect has been time-tested for years and years and I can assure my readers that it is also very, very commercial. Plays well in cabaret, trade shows, stand up, stage and it is great for children's shows as well!

### PROFESSIONAL MAGIC AT IT'S BEST!

**This trick comes complete with** Jumbo Cards, Fred Kaps Routine & Ken Brooke Routine, DVD of Bob Swadling's Act included on DVD is explanation of routine, Also copy, in writing, of both routines. **Bonus:** Alex Elmsley's Four As Four Routine. **See performance of Bob Swadling's routine on our website!** Don't pass this one up if you are a worker.

## Two great Stevens Magic Classics! Highly Recommended!

### Giant Cervon Monte

Stevens Magic is very proud to features Bruce's fabulous **Giant Cervon Monte**. It uses ONLY three jumbo cards. There is NO special printing on the cards. The card indices are NOT altered. Bruce's funny \$100 routine is included on DVD and it comes complete with jumbo cards and instructions. Packs flat and plays "BIG."

The spectator sees the three jumbo cards, with one being a court card. The court card is in the middle, for sure, but it is still impossible to find the jumbo court card, as it jumps to the back or front to avoid being found! How is this possible as there are NO false moves? Believe it!

# Magic Of A Different Sort

## Bi-Kolor Kut

### A Cute Magic Origami Effect!

From out of the past, 1931 to be exact, **Leslie Guest and Judah** created this cut paper effect!

Here how it goes... A paper sheet containing 16 squares alternately colored red and green are displayed and subject to several rapid folds! The performer announces that he will make one cut with the scissors, thereby separating

each of the squares. Also that he will divide all the red squares from the green ones! Two spectators are requested to hold the paper, each holding a folded corner. The performer makes the **ONE CUT**. When it is found that one speculator holds eight red squares and the other spectator is holding all the green squares! **A miracle!**

**The paper with the colored squares is NOT gaffed!** Comes complete with 1 sample, 12 refills and a DVD performance and instructions! **Refills are available or you can reprint your own!**

## Mental Age Test

Hand a lady seven cards that have numbers on them. Tell her to answer with a "yes" or "no" if she sees her age on each card. As the last card is answered, you place it down and take a quick sneak peek on the other side (that divulges her age mathematically). Then you boldly announce, "*Oh, yes, you must be 32!*"

She will be amazed. You immediately repeat with her mentally choosing any number between 1 and 99. It will reveal the chosen number every time! A must have!

Lots Of Fun!! \$18

# Amazing Mental Effects

## Innocence Cards

This is a special deck of 17 cards with images that come from his childhood memory. This deck is designed so even the novice reader will find it easy to give readings.

Each card has a specific drawing taken from Charles Garner's childhood drawings, and the readings cover love, money, risk, health, etc. The cards are coded, which makes it a simple matter to know which card the spectator

chooses. The cards can also be turned over to reveal 17 colors that can also be read.

Charles' deck of cards was designed for professional readers, but as the system is so easy to use, they'll prove just as useful for beginners. Each symbol is designed to have a substantial meaning, which you can make as in-depth as you like. The cards are also ideal for quick readings and the story behind the cards will prove endearing and helpful to your clients. The ability to give any type of reading, whether it be palm reading or tarot cards, has a huge impact on lay people in general. People who are put off by regular tarot style cards and readings will find these are the perfect vehicle to give quick, light and positive readings.

## Prediction Box

The **Prediction Box** (from **Indomagic Land**) is a beautiful box constructed from hard wood, with a dark smoky stain. Upon lifting the lid a tray is seen, which houses four numbered, square blocks (also made of hard wood). Upon lifting the tray (which contains the four blocks of wood) a clearly seen unknown but pre-committed prediction (in the form of a folded small piece of paper) rests on the bottom of the box. The tray is then placed back inside the box and the performer turns his back and asks any spectator to simply remove any one of the four numbers, and hold it tightly in their hands for a period of five seconds. After which, the performer instructs them to return the block to the tray, and let the performer know when it's OK to turn back around. At this point the performer doesn't touch anything and asks another spectator to remove the top tray again and also remove the prediction, unfold it and read it aloud. **Sure enough, in doing so, it matches exactly the numbered block the spectator was previously holding in their hands. No electronics used!** Thanks to T.A. Waters for the idea of this great effect.

# Exclusive Stage Effects

## Double-Locked Mystery Chest

**A Tribute To Roy Roth!** An original mechanical marvel credited to the late great Roy Roth—updated and improved by master craftsman **Louie Gaynor**.

Performer asks for a coin from an audience member. Before taking it, he hands them a Sharpie to sign their initials (or a mark) on

the coin. That coin is then placed inside a small wooden box which is shook to confirm the coin is truly inside. The small box that houses the coin is placed on a small table and the performer points to another table that has a felt or cloth bag on its top. The performer opens up the bag and pulls out a beautiful wooden treasure box. The box is locked, but also tied up with strings. The performer unties the strings and then hands the spectator a key to open up the locked box. Upon doing so, there is another smaller treasure box inside, which is also locked and has strings protruding from each end. The smaller box is also removed and unlocked by a spectator and when it is opened, inside is the signed quarter, which is confirmed to be the exact coin by the spectator. **Note:** To perform the above routine requires a rattle box, which is not included in this set, but available at Stevens Magic.

Exceptionally easy-to-perform, which means this is an item you will USE! There is no duplication, the item that ends up in the box is “exactly” the same item. Made out of Red Mahogany. **Each unit is stamped LUE for Louie Gaynor.**

**Back In-Stock! \$250**

## Portable Asrah

The assistant is covered by a cloth then begins to float, first vertically and then horizontally! The performer’s hands are free as the woman continues floating, you even see her feet moving! Suddenly, she vanishes into thin air! Forget bulky apparatus and equipment, big stages and other helpers. Everything is handled by the performer himself. With **Julio Lipan’s Portable Asrah**, you can forget the apparatus, big stages and other helpers. The effect is the same but much more practical now that everything is handled by the performer himself. Using only one assistant, you can perform the Asrah illusion in a ballroom or even a living room!

This is a great illusion that can be carried in a small suitcase—collapses down to 18 X 10 X 6-inches. Fully extended its 5-feet 3-inches tall. Entire illusion weighs only about 4 pounds. Don’t let the price cause you to think this is just another cheap illusion!

# Collector's Workshop Cups

## Marlin Cups

A wonderful set of custom-made metal cordial cups produced by the craftsmen at Collector's Workshop.

This is a mini version of our Midas Cups. The performer drops four quarters into one cup and when inverted only three coins drop out. The second cup is lifted which reveals the missing coin. This is repeated with another coin joining the previous coin under the other cup. One by one the coins travel invisibly from one cordial cup to the other. Finally, the performer slides a cup (mouth down) across the table leaving a trail of dimes which stretches across his close-up pad.

This is an elegant and magical transposition which only requires your time to learn. The cups and coins provided do most of the work for you. Comes complete with two brass cups-nickel plated, special coins, final load gimmick and complete instructions. Cups measure 5.5-inches tall by slightly less than 1.5-inches wide. Use US quarters (not included).

**\$99**

## Midas Cups

Poetry in motion. One of the classiest coin-transposition ever offered. Elegant and sure-fire with a killer ending!

Fully mechanical in nature. The cups may be examined or handled by spectators.

# A Favorite From Viking

## Strait Jacket

Houdini made his reputation with the strait jacket escape and it has been a success wherever performed. The strait jacket escape can be played for serious drama and suspense or lighthearted comedy and laughter. Let your imagination run wild—your audience will love it!

This top quality is made of softened khaki green cotton canvas with brown “distressed” leather-like trim, 100% leather belting and nickel-plated buckles. This gives it an air of authenticity and make it appear the formidable challenge that it is. This is the same color jacket used by Houdini. Despite its rugged appearance, this strait jacket is engineered to allow the performer comfort, flexibility and ease. It is sturdily constructed and designed to provide years of service. Special modifications ensure escape, yet remain undetectable to those examining the jacket.

Jackets can be used by anyone from slight to stocky build—weighing 110 to 210 pounds and up to six feet tall. **Specify size: S (40-42), M (44-48), L (50-52), XL (54-56).** Khaki green only. Customer sizes available for additional charge. Excellent Quality!

# Viking Silk Effects

## Deluxe Silk To Egg

A red silk is run through the performer's hands, then poked into his fist. It is tossed into the left hand, but instead of the silk, he shows an EGG! The silk has vanished from his hands and is pulled from his

pocket. Now, the audience is let in on the secret: He used two silks and a fake, hollow egg. The performer agrees to show all and repeats his moves, but when the egg finally appears for the second time, it is broken into a glass and show to be a real egg! Complete with specially formed ceramic egg, two 18-inch silks and special gimmick.

**A Classic!! \$35**

## Billy McComb's Half-Dyed Silk

*Billy's signature effect plays professionally and entertainingly. A white silk passed through your closed fist and changes bright red. Performer lets the audience in on the secret, (they think), but in the end the silk comes out of the fist half red and half white. Comes complete and routined.*

**\$50**

## No Tip Silk Vanish

This is a very remarkable vanish of a silk hank. The performer pokes the silk into his fist with a small wand or pen. He taps the hand and the silk hank is completely gone. Both hands can be shown empty. All gimmicks are made of metal and will last a lifetime. No pulls!! Comes complete with detailed instructions.

# Viking Predictions

## T'Ang Dynasty Tea Chest

The performer borrows a finger ring and seals it into a small paper envelope, leaving it in full view. Now, the performer points to—but does not touch—a magnificent, small tea chest. It's exterior of exotic wood reflects well the hours of hand-rubbed attention paid by an artisan of the old school. Hanging from the front of the chest is a small string with a familiar tea bag tag. The spectator is invited to open the envelope. It contains nothing but fragrant tea leaves. The performer gently shakes the tea chest. There is a telltale rattle. He opens the chest, showing that it is chock full of tea bags. The performer grasps the tag on the outside of the box and lifts the attached bag from the chest. Inside the tea bag, that was inside the box, is the spectator's ring! This is a fine, and yes, poetic piece of magic. It plays well for parlor, stage and even close-up. Comes with full routine and presentation. It is a piece you will be proud to own.

**\$155**

## ESP ChipSational

The performer shows the audience two sets of five ESP chips. These will be used in a psychic experiment involving one of the spectators. The twist is, the spectator will actually be able to “read the performer’s mind”! The performer places a chip inside the two compartment box, face-down, followed by the spectator placing his impression of what he “feels” matches the performer’s chip in the remaining empty hole. The performer always goes first. When all 10 chips have been placed in their respective holes they are tipped out on the base and one by one are shown to match perfectly! The spectator actually predicts the performers choices and is 100% correct!

**Things to remember**—There is no force of any kind. The effect is performed exactly as detailed above. The outcome of each presentation is completely random. Set-up/reset takes but 30 seconds. No sleights. All props may be handled by the spectator. The outcome can be different every time. Comes complete with mahogany base with walnut lid and mahogany inlay, hand-crafted box (4.25 x 2.25 x 1 <sup>9</sup>/<sub>16</sub>-inches); custom chips and complete instructions.

## Deluxe Billiard Ball Set

*This is one of the finest sets of Multiplying Billiard Balls on the market today. Balls are turned from select wood chosen for its light weight and resistance to cracking. Each ball is  $1\frac{7}{8}$ -inch in diameter. Painted in proprietary red with gold flake rayon finish. This finish will last a lifetime and will become more “user friendly” the more you use these balls.*

The set consists of three solid red balls, a white ball for a color change, a hollow ball for the Silk To Ball effect and a precision made thin wooden shell. The complete set comes packed in a custom, walnut case. Not since early Thayer have such an exquisite Billiard Ball set been offered. The  $1\frac{7}{8}$ -inch balls give the illusion of larger balls, but make it easier to perform and handle than the 2-inch or larger balls. **These balls have that special “cling” finish!** If you are looking for a Billiard Ball set to be proud of, a set that will allow you to show off your skill, then look no further!

## Chest Of Nostradamus

**Invented by Jos Denys of Belgium...**The mentalist displays a small chest suspended from chains hanging from his extended finger, which contains a deck of cards and a small envelope. A spectator opens the chest to get the cards and cuts from the deck as many cards as he wishes. The mentalist guarantees the freely cut card will match the prediction in the envelope. The participant is asked, in his mind only; to cut an imaginary deck of cards, count the number of cards in the portion he cut and keep it to himself. He has a free choice and may change his mind until the moment that he reveals it. The participant

is asked to do the same with the real deck of cards. The chains are detached, the chest placed on the participant’s palm. He is told to open the chest and to place the envelope and deck on the table. The envelope containing the prediction card is removed and placed next to the chest. The participant counts off the same number of cards that he imagined cutting in his mind previously and places the dealt off cards aside. Then he removes the top card from his stack and places it to the side—face down. Attention is drawn to the prediction envelope—it is torn open showing the card inside to be an exact match! Reset takes two minutes.

## The Missing Inch

This is a recreation of a very mysterious and classic effect. This new version is made from wood and was built to last a lifetime of use. This classic effect comes from the workshop of Bill Montana. **For this effect you will need a small tape measure not provided.**

This item will appeal to those who teach math and science by using magic. Equally it will appeal to those magicians who like wood props and effects that are "away from the norm." While construction may appear to look easy—I assure you it's not...It is made from plywood, with felt back and stained and varnished by hand. **More details on our website!**

## Fifteen Arrows

**\$25**

This is a wonderful, close-up item for the performer who is looking for something a bit different from the norm.

prediction effect too! **Fifteen Arrows** comes complete with the wooden arrows, used as game pieces. Included in each set is an extra arrow should one missing! **More details on our website!**

## Win-Lose Rolling Log

**Oh boy! Are you going to have fun with this item!** Long off the market and very hard to find today!

A high-low log which enables **YOU** the “Magi” to roll the log and come up with higher numbers and when given to the spectator, they come up with the lower numbers! (Get it?!)

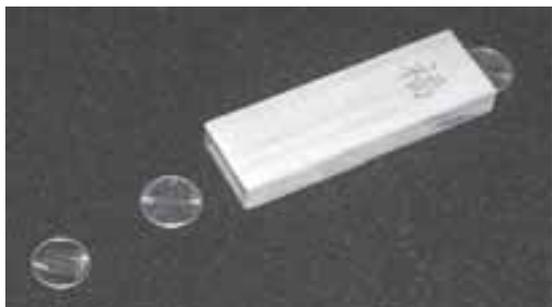

It is an innocent-looking log, it has an educated “gaff” that can be controlled. (One can either claim the highest number wins or lower numbers win—your choice.) The **Win-Lose Rolling Log** is accurate 80-90% of the time and gives good advantage over the person who is playing. It is so **diabolical** in design that if you could travel back in time with this device, you would leave even the best of the “crooked gamblers” broke in just a few games.

Made of Hard Maple and hand crafted in the workshops of **Dr. Paul and Bill Montana** and is **sold for entertainment purposes only**. Log is 3/4-inch thick and 2-inches long and comes with instructions for use.

## Slick Dimey

During the first part of the 20th Century about 1910-1919 this little magical gem first appeared. It may have been originally created by Carl S. Lohrey of Dayton, Ohio as it is mentioned in one of his earliest catalogs. It also is mentioned in a very early advertisement from Sherm’s Inc., of Bridgeport, Connecticut, as well as being featured occasionally in very early ads for Thayer (however it was not a Thayer item and was only sold through them).

This trick is simple enough to do a small child can master it, yet its perplexing enough for adults. No Skill Required. The routine will make any magician look like a real worker. # Great Money Items!

## Mismade Dollar Bill

The magician borrows a dollar bill and shows both sides. He then shows both hands empty. (Except for the borrowed bill, of course!) The bill is folded in half and then in half again.

With a magical gesture the bill is unfolded, and has transformed into a “mismade” bill. The “mismade” bill is refolded and changed back to its original form and then returned to the spectator.

## Fred Kaps Treasury Note

The performer slowly counts five pieces of newspaper. With a flick of the wrist, the paper instantly changes into five \$1.00 bills! (Can be changed back into paper too!) You will love this stunning, close-up, walkaround effect. We've made the master gimmick for you! All you have to do is add five \$1.00 bills to the packet! Quick! Visual! Perform Surrounded! Easy To Do! Easy To Carry! Don't leave home without it.

**Available Again! \$15**

## Confusing George

### The Five \$1.00 Bill Illusion

Pull out five \$1.00 bills and count them in front of the spectators, turning every other one over as you count them! So you have some upside down and a couple right side up! That's it. Flick them...Shake them...Blow on them...Turn them over and all of the bills are now face up! Yep, that's right—you mix them and still they correct themselves. “Old George” is magical and confusing for sure! No false counts or sleights! An excellent effect for walk around or close-up! Comes complete with instructions.

# Fearson's Got Some Winners!

## Impossible Levitation

ANYONE can do this and you can perform it just about anywhere... UP CLOSE... EVEN IN BROAD DAYLIGHT!

Now you can perform a truly impossible feat of levitation without complicated body hookups, without fumbling with reels and without fear of the object falling to the ground because your thread snapped. Impossible has never been so easy!

**You will receive all necessary gimmicks and access to a comprehensive online instructional DVD. (Bonus alternate presentation ideas included.)**

**IMPORTANT: You supply the bill and the glass.**

## Master Wax— Flesh

Invisible thread work demands a wax that is tacky and pliable, yet

hard enough to hold the thread firmly so that it doesn't pull through the wax and come loose. This wax meets all those requirements!

It will stick firmly to a fingernail, playing card or other hard surface and comes off clean! It will not cause a mess by sticking to your skin or clothing like other brands. **But most importantly...** Fearson's Master Wax holds thread tight!

And since it's flesh colored, it's more stealth-like than traditional white wax.

**\$8**

## Master Wax— Colored

You receive four colors. Red and Blue for the back of Bicycle decks. Also Black and

White for attaching to the faces or to the backs of the many specialty decks that have been introduced recently.

You can also MIX the colors to achieve EXACTLY the shade you need! Adding a dab of black will darken up the color, a bit of white will lighten it. This means no more worries in close quarters, they'll NEVER spot your wax. Use the white to attach to the back of a borrowed credit card and it COMES OFF CLEAN! **But most importantly...** Fearson's Master Wax holds thread tight!

# Tricks To Get Laughs!

## Coffee Cup Mystery

This is a scientific magical illusion!

Imagine a large coffee cup hanging on a string and at the opposite end of the string is a large washer. You extend your arms so the string is fully stretched. Pick up the wand and hold it under the string supporting the cup. NOW... drop the washer end and watch the MAGIC! The cup does NOT fall to the floor! Pure magic! The cups falls, BUT never reaches the floor! Instead,

the string wraps around the wand (science and gravity are involved here) and prevents the cup from hitting the ground!

YOU MUST SEE THIS TO BELIEVE IT! A great novelty item. Excellent for children's shows. Lay audiences will love it. You will too!

**Important: Does not come with wand as shown in photo, you must provide your own.**

**\$20**

## Connection 2 Versions!

The performer displays a rod, which has a red string at each end. On tag has a picture of a boy, the other has a picture of a girl.

The performer tells an Asian myth, in which lovers are connected by invisible red string. When the performer pulls the boy tag down, the girl tag rises as if they are connected. But the center part of the rod is transparent, so audience can see that there is no string between the two tags. **There are two versions: Small and Large.** The small version can be completely disassembled at the end, but you CANNOT disassemble the large!

**Small (7.5-inches)...\$27.50**  
**Large (16.5-inches)...\$42.50**

# Seo's Tricks & Gimmicks

## Bending Spoon In Picture

*Become an instant psychic!* An illustration of a spoon is shown on a clipboard. A spectator is asked to sign his name on the paper beside the drawing of the spoon. The performer removes the paper from the clipboard, turns it face down and concentrates on bending it.

When the paper is shown, the spoon is now BENT! The bent spoon illustration is there on the paper with the spectator's signature! One piece of paper—nothing more! Clever, ingenious, mystifying! Very well made.

## Four Nightmares Deluxe

**One of our hottest sellers from Tenyo!** A long piece of rope and a short piece of rope are displayed to the audience. Then the magician visually stretches the ropes to equal lengths. The magician ties the two ropes together. Then the knot is miraculously slid off of the rope and the magician is left with one long piece of rope. Finally the magician ties one final knot in the middle of the rope. With no false moves the loop is slid cleanly off the rope as well, leaving the magician with a piece of rope in one hand and an endless loop of rope in the other hand. Comes complete with step-by-step instructions and specially prepared rope!

## Ghostly Rose

You hand a spectator a rose in a clear plastic vase and instruct them to turn it over. Of course, the rose falls to the floor. You then have the vase returned to you and pick up the rose and place it within the vase. Then you turn the vase upside down and the rose refuses to fall out of the clear bud vase—even when you swing the vase! You insert the rose halfway into the vase, releasing the latter and the two still cling together as if frozen in time and space! They are under direct control of the performer's magic! The magic doesn't stop there! Suddenly the rose melts right through the bottom of the clear bud vase. Having done so it is seen to have also inverted itself resulting in the rose bud protruding through the bottom of the clear vase. Just as suddenly the rose reverses itself returning to its original upright position.
