The Ken Brooke Magic Range

The history of our relationship with
Ken Brooke & Paul Stone.

After opening **Stevens Magic Emporium in 1975**—and having a passion for our “**Art Of Magic**”—I kept hearing from our many magic friends that there was a special shop in London, England, where all of the professional magicians would congregate, not only in Great Britain, but in all of Europe.

The top minds in magic were regular visitors and the magic shop’s name was—**Ken Brooke’s Magic Range**. I heard that Ken was the TOP magic demonstrator at magic conventions. This continued through the late 70’s and finally we thought it would be nice to bring Ken Brooke to America for a *Desert Magic Seminar* event. **Jay**

Marshall had endorsed the idea and we, at that time, honored Ken with the Seminar Award for all that he had contributed to the magic world all his life! I remember the tears that flowed down his face with this adulation that we bestowed upon him.

So, through Paul Stone we purchased the rights to the Ken Brooke Magic Range for North America in 1982 and have held the rights ever since! We **paid Paul Stone** not only for distribution rights but also for all of the card effects of Ken’s that we were to make up ourselves! To this day, we are still very proud to maintain these rights and distribute Ken’s items to our customers. In 2006, **our agreement** with Paul Stone was brought up to date and contracted, once again, and we look forward to bringing the magic fraternity these high profile items **for years to come!**

You will never be regretful with any of Ken’s routines and effects as they are all professional and most important commercial! (This means they have been tried and proved with public audiences.)

In closing, thank you for your past business and we look forward to having more fun and business with you in the future!

Driebeck Die

Same Quality, At A Better Price

A large red die is taken apart and from it you remove what you state is "A Carrying Case" for the die. The two sections of the red die are placed on the table in full view. The case is now opened up and is also shown inside and out. The empty case is placed on the table alongside the red die. The two parts of the red die are reassembled, freely shown and then—believe it or not—the die is placed inside the carrying case, which only moments before was taken from it! But the effect does not end there! Now you open the case and from it—you produce a box of tea from China—the red die has completely vanished! The apparatus is handmade and brightly colored. Can be performed entirely surrounded.

Featured by Paul Daniels, Roy Johnson, Trevor Lewis, Ben Martin and Sid Lorraine to name a few.

Jim Hooper's Nemo Jumbo Rising Cards

Made famous by Ken Brooke, Roy Johnson and Paul Daniels.

Three jumbo cards rise out of the houlette—one at a time and in three different ways!

Cards are freely selected. A Perspex houlette is fully examined and cards placed inside. The first card rises up mysteriously from the houlette and is confirmed by the first spectator. A silk or handkerchief is draped over the houlette for the second card rise. The magician whistles or plays a tune on a magic flute and the selected card rises up under the silk! Now for the "Finale". The third and final card is placed into a simple envelope and this is placed into the houlette. The spectator holds the houlette up and instructs the envelope to rise! The envelope then rises up out of the houlette. The spectator commands the envelope to open... and the flap of the envelope slowly opens. With the spectator still holding the houlette in their hands, they command the card to rise up out of the envelope and unbelievably; it does RISE up and out of the envelope.

You, the performer, control all raisings of cards.

Comes complete with everything you need. **See Paul Daniels performance on website and more details as well.**

Kaps Floating Cork

The performer sets a 4 x 3 x 2.5-inch solid wood box on the table. When he opens it, an ordinary wine cork is seen inside. At the performer's command, the cork begins to quiver and slowly rises out of the box. The cork floats and moves above the box. The performer brings out a 3-inch ring, which he passes over, under and around the floating cork! The cork slowly returns to the box.

We are proud to re-release this classic item. **Made famous by the legendary Fred Kaps.** Levitation is one magic greatest tricks and effects, nothing creates a sense of disbelief and "awe" like this great effect. Comes complete with box, cork, ring, Feason Thread Bullet (plus extra thread), Feason Wax and detailed instructions.

Unbelievable as it may sound, this is a brief account of what they see. Please read it carefully... Five cards are shown back and front. The backs are **blue**. One card is place face down on the table. A **red** backed card is removed from a wallet (supplied) and placed on top of the cards in the hand. The polaroid takes over. **All cards now have red backs!** One is placed face down on the table. A card with a **multi-colored back** is taken from the wallet, placed on top of the cards—Bingo—**all cards now have multi-colored backs**. One is removed and placed alongside the two tabled cards.

A “Kingfisher” backed card is then introduced from the wallet to the pack of cards and—Bongo—**all cards are now Kingfisher backed**. One is placed on the table. **The unbelievable then takes place...**

Turning over the cards that remain in his hand, the performer throws them across the table... **Each of the nine cards employed in the trick has a completely different back design and color!**

NOTE: The back designs of the cards supplied may differ from those stated above. The general effect of the trick will remain the same.

He taps each card with a borrowed coin until the spectator stops him at the thought of hour and places the coin on the card. The prediction is read, "The card on the hour you are

thinking of will not be a Joker." It's turned over, sure enough, **it's not a Joker.** The other cards are turned over, all Jokers! The rest of the deck—Jokers! Cards in his pocket—Jokers!

Poker Pot

A Re-Release From The Ken Brooke Magic Range

If you're looking for something completely different in a close-up routine—Here it is! Used by professionals for years, we are happy to re-release this upgraded version. **Each unit is hand made and hallmarked by Louie Gaynor, crafted from the finest walnut.** Far superior to the original model made from aluminium. Meticulous detail and quality in every way!

Jack Avis has taken two classical principles and by blending them together has produced a clean cut magical effect for performing what

is known as “CHINK-A-CHINK.” The box removes the need for shells or “extra units” of the items employed thus, the weakness of having to obtain and later ditch them is entirely eliminated. **Roy Johnson** has added additional material to the original. Once the basic principle is understood, Roy's working can be quickly understood! And there is nine pages of additional thoughts and routines provided by the late great Ken Brooke.

“After years of trying to bring this classic, close-up item/routine back to the magic world, we are finally happy to bring it to fruition—thanks to Louie Gaynor, who put his touch to the effect out of natural walnut.” --Joe Stevens

Four cards of the same value are shown. The performer gives the cards a flick and one of the cards turns face down! Another flick of the cards makes the second card face down. Finally **ALL** cards shown at

The color of the backs through out the routine are seen to be (either red or blue), but the performer now shows them to all be of one color. Then suddenly, with no moves whatsoever, each card is seen to have a **DIFFERENT EXOTIC BACK, of a different design!** This one is fun to do and easy to carry.

Performer starts with two caps and then introduces extra caps through the routine, and always the spectator cannot find the darn pea! Tony Lackner's Money Machine

Probably the most visual and mind bending money machine every made. Tony Lackner deserved a "creative genius" award for the mechanics and eye-trickery involved in the creation of this superbly made machine.

Crafted from metal with a chrome finish, and a protective rubber base, the **Money Machine** is in principle a copy of the old flat bed roller method of printing a note from a blank piece of paper. That is, where the comparison ends! This takes 10 seconds to set, looks like a quality prop and is 100% surefire.

A currency note is borrowed and placed onto the **Money Machine**. You tell the spectators you are going to take some "fluid" from this note, by rolling over it.

Then you give it back and take a blank piece of paper which is not placed onto the **Money Machine** and bit by bit, it visually becomes a pound or dollar, which can be examined, when the ink has dried.

From The Creative Mind
Of Pete Biro Comes...

Pete's Peeper

Off the market for over 20 years, originally released by Ken Brooke, Pete Biro's thimble routine plays strong, is angle proof and requires little skill. The original version featured a 6-inch long thimble for the climax, but over time Pete refined the routine and found that a STACK of 10 thimbles to finish the routine made more sense and played stronger. It's "hide-and-seek" routine, all done facing forward so the audience gets a clear view, unlike most manipulation routines where the performer turns to the side blocking half the audience's view.

Ron Wilson's Second Sight

Want something clever that was created by **Ron Wilson** to be able to do **Dai Vernon's Brainwave** and be CLEAN at the finish by showing both sides of the deck. In **Charlie Miller's opinion** this is the cleanest version of the Brainwave to date! No angles to worry about before, during and after the effect.

Magician removes a blue-backed (or red) deck of cards from the case. The deck is fanned toward the audience. He removes one opposite color card from his pocket showing back-side only. It is placed into the middle of the blue deck and the m is closed. A spectator is asked to shuffle and to run through the cards face up and when he sees a card he fancies to call out the name of the card. Taking the deck the magician fans the faces of the cards toward the audience. Very slowly until he comes to the names card, which is pushed upward from the fan. **The fanned deck is now slowly turned around and the pushed up card is seen to have a red back! IT IS the red-backed card that was named by the spectator.** Yep...true! No confederates! Is straight forward. Seems impossible. A signature effect of Ron's act. This one fool's magicians!

Tenyo's Version Of Ghost Lamp

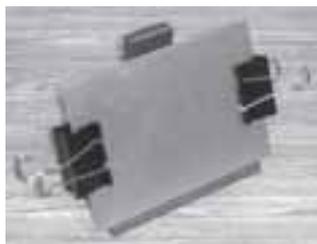

The **Scotty York Lamp** is one of the true classics of magic. Now Tenyo has created an affordable option for this effect, and we are making it available at an even more affordable price!

Wrap a light bulb inside of a handkerchief, and allow a spectator to wave it over several piles of cards. When the bulb comes close to one pile, it lights up! Sure enough, the top card of that pile is the spectator's selected card. The light stays on until you are ready for it to go off. To turn the light off, you cut an "invisible" wire with a pair of scissors. At the instant you snip the invisible wire, the bulb goes out.

This masterpiece of magic is now available as part of Tenyo's 2011 line. Included in the set are the very special light bulb, a special deck of cards and a special gimmick you can use for added impact. Fantastic magic.

Magic Wagon's Version Of Ghost Board

This effect was inspired by Richard Himber's Slate in the 1950's and also inspired by a Ken Brooke Routine. The mechanism, however, has been carefully re-designed and handcrafted into the frame construction using centuries old techniques.

The performer explains that before the show, he has written a prediction on a small whiteboard and covered it with a brass plate as seen on the table. He then asks a spectator to name any object, for example any person's name, a number between 1 and 1,000 or any city in the world. The performer then writes the chosen word with the date of the performance on the back side of the whiteboard as a record for the audience. With

absolutely no hesitation, the performer removes the brass plate in full view, showing that the prediction he previously wrote before the show started exactly matches the spectator's selection!

The frame measures 3.3 inches by 4.3 inches by .4 thick. Completely hand-crafted from genuine teak with a distressed antique finish so that the props look decades old. Each Ghost Board comes complete with a custom designed display stand.

Comedy Mentalism— Magic At Its Best!

History—This is an idea by Billy McComb. Ken Brooke released a smaller version know as “Potty Prediction”. (See Potty Prediction in this Ken Brooke Catalog.) Ton Onosaka released his version of the effect called, Royal Revision.

The audience is in on all of the fun! You show the face of a 10 x 14-inch giant prediction card. (Unseen by your spectator), which is in a stand in full view, with its back to the audience. Next

you show them the faces of an extra large, 1-way force deck in which every card is the same as the prediction.

The spectator, who has not seen the faces of the 1-way force deck, is asked to choose any card? Now for the fun part! They name he WRONG card! Impossible, as their card does not match your prediction card? Has the spectator double crossed you?

The prediction is now turned around and it has now changed to the selection card! Everyone is confused. The audience has been “double crossed”, the laughs are guaranteed and built it. ONLY showmanship is needed as the effect is all self-working. **Comes complete with stand, forcing deck, jumbo changing card and professional routines, patter by George Schindler.** Large enough for stage and parlor.
