House Of Magic Presents...

Air Levitation

Complete Sell Out at IBM/SAM!

Please note each and every one of these is hand-assembled by Buma. This is not something that is produced in any quantity or imported. When watching the video demo—focus on when the non-levitating bill is passed completely under the levitating bill—in a side to side motion! That's what makes this very special!

What the audience sees: Two unprepared form a spectator. One of the bills is laid on the magicians' palm. At the magician's command, the bill slowly and mysteriously rise's above the performers open outstretched hand. The second borrowed bill is now passed from left to right completely under the levitating bill, allowing for the second borrowed bill to be seen to completely pass under the levitating bill, from it's far left side all the way to it's right side with no visible

support of the levitating bill! The second borrowed bill may also be slid completely under the levitating bill, "front to back" with no visible support of the levitating bill! The two borrowed bills are now folded to show they have contained no secret appliance used to accomplish this eye popping illusion and returned to there owners. The performers hands are seen to be completely empty!

Just as in all of Buma's outside the box effects this effect is conceived, designed and expertly crafted completely from the ground up. The only thing cooler than the illusion itself is the diabolical method and gaff. The method is innovative, and unlike any other on the market. This new gaff has never been utilized in completed form in close-up magic. Does what no other previous bill levitations could do. Guaranteed to be the most innovative method available.

Benefits: A visual levitation unlike any other. Completely original in design and execution. Easy and fast to learn and master, no sleights. Uses no invisible thread or Finn Jon style loops. The gaff is completely invisible to the audience before, during and after performance. Uses unprepared and borrowed bills or similar objects. For right or left hand performance. Fits in your shirt pocket. Always ready to perform. Great for walk around, trade show and general close up performance. Comes complete with easy to follow, photo illustrated instructions. Magnetic ditch and retrieve capabilities. Handmade one at a time by Buma himself with innovative materials. Utilizes no sleeve work, may be performed shirtless.

Micro-Magic By Buma

Living Ankh

Presented by House of Magic...The performer introduces a small carved Jade Ankh, lightly embellished with precious stones. Upon being freely handled by the audience, it is left placed in the open upward facing flat palm of a spectator.

With nothing more then some flourishes with one or both of the performers hands the reason for the **Living Ankh's** name becomes apparent, as it begins to stir to life in the spectators palm, for it is now actually seen to be slightly thrashings to and fro, only to suddenly give way to a startling gyration that will leave the spectator and the observing audience speechless and totally baffled.

With a final flourish of the performer's hand the **Living Ankh** is seen once again to be lying lifeless upon the open outstretched palm of the spectator. (At no time before, during or after the performance is there ever any physical connection between the **Living Ankh** and the performer.)

Additional effects may also be performed: **The Ankh Knows! The Vanishing Ankh! The Aquatic Ankh! The dematerialized Ankh!** (Details available on the website!)

Rocky Clements—Brand New

Final Answer Parlor

Many people have been asking for a smaller version of the stage size Final Answer, so they could take this amazing prop into more intimate and smaller venues. Rocky has been working this and he has done it! Not only is it available, but he has made a subtle yet, dynamic

change by removing the wood panel that covers the prediction door so it can just be casually covered up with paper (and thus less contraption looking). This subtle change really makes it seem more instantaneous!

Imagine a prediction board you can count on, allowing you to concentrate solely on the presentation and allowing the product to work the magic for you! After many years Rocky is finally offering the magic community one of his most powerful effects—what he calls the “Ultimate Final Answer” in Prediction Boards. That time is now!

It goes like this...The audience is asked to develop a story with the details recorded on a single chalkboard, in colored chalk by the magician. Immediately after, the magician opens the upper door to reveal that his prediction, written in white chalk, matches perfectly with the spectators freely chosen words. This is an entirely unique principle that eliminates the drawbacks of every of prop of this nature.

No Force. No Double Writing. No Assistants. No Electronics. No “one ahead”. No “loading” the prediction from tables or envelopes, etc. Just write the spectator’s answers and the magic is done! The most direct and straightforward principle possible. There is NO other effect in the world that can meet these standards! Dimensions 18-inches tall X 12-inches wide x by 1/5-inch thick.

The original method used was first applied by David Howarth and Ken Brooke on a small slate they marketed many years ago. This item comes with detailed tips and instructions teaching you how to maximize the impact of this amazing device, directly from professional performer Rocky Clements who uses this very effect in his act. ***Due to demand, please note this product may have a 2 week lead time.***

Brand New From Jay Mattioli

HOT!

Muscle Maker

The performer begins by explaining to the audience, that as a magician, one doesn't have to go to the gym to get big time muscles. He then shows the audience a rectangular machine bearing the words "MUSCLE MAKER" on the front. The magician places his entire forearm in the device and turns the machine on. A green light comes on along with the sound of a machine being activated. After a few seconds the magician removes his arm from the machine, revealing that his forearm has grown more than double in muscle size (think Popeye arms).

After a few moments of strutting his newly stacked arm, the magician reveals that its just a fake muscular sleeve over his real arm. Attempting to try again for real, the magician places his arm in the machine again and turns it on. This time, the machine starts emitting smoke from the side, then a flash of fire, followed by a piercing alarm and a flashing light. During the chaos, the word "MAKER" falls off the front revealing it now to read "MUSCLE REDUCER". The magician frantically shuts the machine completely off and opens the doors of the unit revealing the middle section of his forearm has completely vanished! The audience can see clear through the front and out the back of the machine!

In an effort to recover, the magician produces a laminated covering over the word "REDUCER" making the front of the machine now read "MUSCLE FIXER". For the last time, the magician turns the unit on and after a few seconds, he removes his arm showing that it has returned back to normal size!

No box sitting on a box, on a box like similar illusions. Special micro smoke machine creates a harmless, odorless vapor. Eight Alkaline AA batteries power the unit for many performances. Includes Muscle Maker machine, sweat bands, muscle forearm, signage, all electronics, smoke juice, instructional DVD and custom padded poly fiber road case measuring approximately 21 x 14 x 14 inches.

Dr. Paul & Bill Montana's Triple Rang

A close-up version of a classic improved! Why the illusion is greater when three boomerangs are used compared with two!

Three wooden boomerangs are displayed, not just two. The boomerangs are laid out one the table and a spectator is asked to tell the performer which is the larger of the three. After the spectator points out this larger boomerang the performer picks it up and ask the spectator to point to one of the two smaller boomerangs left on the table. After this boomerang has been selected the performer touches the larger boomerang to the one selected by the spectator and then picks it up and sets down the one he or she was first holding in its place. The second boomerang that the spectator picked is now placed where the larger boomerang was. To everyone's surprise the large boomerang has now become a bit smaller and the one the spectator selected has become larger. At this point the performer mixes up the boomerangs and asks the spectator to pick up any two of the three and hand these two to the performer. Where the performer shows them to be the same size. At this point the performer ask the spectator which would you like to be larger and which would you like to be smaller. **For more details please see website!**

The Final Card

Another must have Powell item!

The diabolically clever hidden secret in the color wheel does all the work for you!

The magician shows an envelope he says contains a prediction. A regular ungimmicked deck of cards is shown and thoroughly shuffled by a spectator. A painted wooden disc is shown on both sides and placed in full view on a wooden easel. From the shuffled deck four cards are added to each clip on the color wheel. As the spectators choose a color all the cards on that color are discarded until only one color with cards is left. The cards on that color are separated and each of those four cards is placed under a clip on the color wheel. Now the spectators repeat picking a color and the card from that color is discarded until only one card remains. The card is turned over and revealed, it matches the prediction card in the envelope perfectly.

No forcing the selection of colors—completely free choice. The deck is thoroughly shuffled by the spectator.

Cesarl's Magic

Magic Pendulum

An audience member picks a card which is then lost in the deck, and the deck is shuffled. The magician spreads the cards on the table and asks to borrow a watch with a second hand from an audience member. He ties it to the end of a string, and holds it to make a kind of a pendulum. He looks for the card using this home-made pendulum and the second hand stops when it is above the selected card. When the pendulum is moved away, the second hand starts up again. **Important Points:**

The magician is not close to the borrowed watch during the effect. Just holds the string. The method used is incredible and totally deceptive. Can be performed surrounded. The reset takes less than 4 seconds, and thus is great for walk-around magic. It is very easy to do, allowing you to concentrate on the presentation! The watch and string can be fully examined at the end.

Anti-G

 \$45

Cesarl's "Anti-G" is WORLDS ahead of anything that has ever been previously made!

The **Cesarl Anti-G** has some major advantages over the classic gimmick: It is thinner and fits perfectly over the mouth of the bottle. It attaches easily and does not come off even if you shake the bottle. The mouth of the gimmick is conical. This makes the inserting the toothpick into the bottle **VERY EASY**—no more fiddling and looking for the hole—a advantage compared to the original gimmick. The conical shape of the gimmick means that when it is put on the bottle the gimmick becomes **INVISIBLE**—no more bad angles and the danger of people seeing the flatness of the old gimmick. **See website for sample effects.**

Perfect Blank Deck

A pure white blank deck of cards is presented and shown on both sides... The cards are totally blank. Yet the magician is able to "project" the images of printed cards on the previously seen blank deck. At first the magician does it quickly and all you can see is a quick glance of a printed card on the top? But it's so fast you ask yourself "did I really see that, or is it an illusion?" Magic

is all about illusion but to remove all doubts the deck is once again shown blank and then with the most natural handling, all the cards are not printed on "both" sides!

BONUS: You will get an additional effect titled—Six Wildcards. The item comes with a very good DVD with excellent English instructions. One regular deck is needed to perform this miracle, which is not included (**supply your own deck**).

Old Is New Again

Bruce Bernstein's Linking Pin Routine

The magician links two large safety pins together, fairly and plainly. The pins visibly and slowly melt apart. The effect is repeated—pins unlink again—and the illusion looks just as baffling as it did the first time. The pins are then caused to magically link together—one moment the two are separate, and the next, they are linked. Finally, an ungimmicked finger ring is locked onto one of the pins. Despite the fairness of the proceedings, the ring melts off of the pin it was locked on. At the same moment the two pins

link together, in full view, inches from the spectators. At the end, everything can be examined.

The **Bernstein Linking Pin Routine** requires no specially manufactured gaffs and no complicated sleight-of-hand. All that's required are the two pins and a finger ring. **There are no external gimmicks.** It's ready any time. Included inside are all necessary props and media: 2 – 3-inch safety pins, instructional DVD featuring Bernstein's performance and explanation and a 17 x 22-inch poster with clear line drawings to make learning easy.

Tom Yurasits' Confusing Crayons

Topsy Turvy for a new generation—that is exactly what this fantastic item provides. It is ideal for birthday magic, but certainly shouldn't be limited to it. Anytime you want to incorporate a solid, comical routine into your show—this should be considered. Not only does it provide laughs, but also it's "interactive" allowing you and a lucky spectator (i.e., birthday child perhaps) the opportunity to share center stage with the magician. However, instead of the classic bottles "you do as I do" bottle routine is done with large red and yellow crayons! A child (or adult) follows the magician's every move, yet his or her crayon is always upside down while the magician's is right side up. And get this... the magician can exchange crayons with the spectator at any time, and it will work with either color! Great routine for children! Beautifully made! A very colorful prop that packs small but plays big!

This new release takes the original **Cogito Ergo Sum** to a new level, with beautiful line drawings of each philosopher in the book, ***The World's Greatest Philosophers***, a new pocket size paper book that fits in a jacket pocket for walk around and business presentations—has a new kicker finish that is a perfect link for further explorations in non-duality.
