Thomas Pohle Presents...

The Secret Of Montezuma

This is the third item in the beautiful and colorful Aztec Series from Thomas. It is a clever item that is easy to reset and is quite mystifying. You show the four medallions of ancient Aztec gods, including the great and powerful Montezuma, arranged neatly on a stand. The performer turns his head away from the audience and they are asked to remove any medallion, keep it secure in their hand, and close up the lid so that the performer is unable to see which one they have.

The performer then shows the stand all around, clearly showing there is no way to know which medallion they have chosen. He then turns his attention to a neat looking container that holds another closed box—all of which has been in view since the beginning. The closed box is removed and a single piece of parchment is removed. The box is clearly shown empty. The spectator now reveals the medallion that they removed earlier and the parchment is opened by the spectator and it is seen to be a perfect match!

This effect has no complex set-up, instantly resets and no memory work is required, as Thomas has even engraved the images of the gods in the top of the box for an easy reminder of the order. It uses a clever idea for the performer to divine which medallion is chosen (which can even be used behind your back or blind folded). It really is a very well thought out miracle!

This new Aztec Series has something for everyone! Only a small number remain.

Neptune's Orb

Buma's Newest Gem...

The performer introduces an EMPTY band about 14 inches in length, it contains two small pearls, one permanently attached at each end of the band. The performer positions the band horizontally, held taut between their hands. A spectator is asked to hold out both of their hands, palms down and positioned (stacked) one atop the other. The performer now positions the center of the EMPTY but tautly held band directly under the spectator's palm down hands. At the performer's request, the spectator separates their hands from

above the center of the band revealing the center of the band which now contains a large shimmering pearl PERMANENTLY threaded onto the very center of its tautly held band.

Next, the performer takes the band with the large pearl and holds it taut horizontally between their hands and asks the spectator to touch the large pearl. Suddenly, slowly and visibly the large pearl starts to move on its own, first a little to the left then a little to the right, then moves almost all the way to the left, then moves back to the center of the band.

Finally the performer takes the band with the large pearl and holds it taut between their hands vertically, then at the performer's command, the large pearl descends, then with another command from the performer the large pearl stops. This is repeated again, then the performer commands it to the band's middle at which time the large pearl is seen to rise up, **ascend** like an elevator to the center of the band. You may even have the pearl answer yes or no questions, locate a selected item or items or just move when and where you want it to along the band!

Performance Benefits: Fits in your shirt pocket, no setup. Easy to master—no threads, wires, magnets—nothing is added or taken away, examinable before during and after your performance. Performed seated, standing and while surrounded, involves no sleeve work, may be performed shirtless.

Handcrafted by Buma. Includes **FREE Buma leather carrying case for the pearl and the carrying of your packet effects, business cards and other smaller props.** Case features magnetic buttons and belt clip—all Buma quality. **Website features more photos of the Pearl and Case!**

Buma's FingerTraction!

SME
Exclusive!

You Hear
The Bill
Being
Penetrated!

SEEING IS BELIEVING...The performer borrows a paper bill currency from any spectator and displays both sides of the bill. The performer then folds the bill in half lengthwise, held horizontally in the performer's left hand with the now folded over section of the bill facing downward. The performer then points upward into the fold from underneath the bill with the index finger of their right hand, directly at the center of the bill's open "middle".

The performer now partially inserts their right hand index finger into the bottom of the bill's open center when suddenly they thrust their index finger right through the center of the bill—"in one side and out the

other"—the performer's index finger is now actually seen to be emerging from atop the other side of the bill, its "outside" surface.

The performer now lifts up the folded part of the bill to better show his index finger actually penetrating through the bill "in one side and out the other." The performer then turns the penetrated bill vertically and visibly retracts his index finger completely out of the bill only to be seen visibly re-thrusting his extended index finger back into the vertical bill, only this time through a different spot on the bill. The performer is now seen to visibly slide their penetrating index finger vertically up or down, right through the center of the bill when suddenly they are seen to pull their finger completely out of the bill. The performer immediately flattens and displays the bill to show there are, in fact, no rips, tears, holes or slits whatsoever, for the borrowed bill is unharmed. The performer then returns the bill back to the spectator in pristine condition.

Performance Benefits:

Always ready to perform, the gimmick fits in your shirt pocket. Easy to master, no mechanics, nothing to break, no parts to replace. Under your complete control at all times, may be instantly repeated. Totally Impromptu! All items are borrowed and actually used in your presentation. Involves no sleeve work, may be performed shirtless. Can be performed seated or standing. Great for walk around, tradeshow and close-up performance. No threads, wires, magnets or mirrors involved. Completely original in design and execution. Hand crafted one at a time by Buma in limited numbers, assuring you BUMA quality. Comes complete with easy to follow, photo illustrated instructions. Fully designed, crafted, illustrated and routined by BUMA. Unlike any other gimmick Buma has ever designed before.

"Whether you're working for tips, performing in a restaurant, cruise ship, tradeshow or even on the street, Buma's FingerTraction is the perfect audience participation effect that puts their money in your hand!" --Joe Stevens

Durable Utility Items

**Voitko Magic
Presents...**

Close-Up Case

This is a very nice accessory for those of you who are looking for an easy way to get double-duty! Can easily carry—very lightweight—but also can be used as a performance pad! Case measurements are: 17x12x2-inches.

Enhancements: Each of these cases

has been fitted with a black felt top—which is paramount to a close-up pad. The black felt is also lined “inside” the cases on both top and bottom (internal). Wings have been added to both sides, allowing you, the performer, to have reasonable cover when you are going into and out of the case to get your props. Very well thought out when you think about it.

NOTE: there are some MINOR cosmetic issues with these cases that make them less than perfect. This is only noticed where the black felt has been cut on the top of the units. That stated, each unit is full-functional, and we are talking “minimal” issues. That is also why the price is \$15.00 less. **Repeat: NONE of these issues are severe in any way, if even noticeable!**

Powell Magic Presents...

Remote Control Card Fountain

At the performer’s command, an entire deck of cards fly out of a box, bag or hat! What a dramatic way to find a selected card. No better way to draw a crowd than cards flying several

feet in the air! Look what sets this equipment apart from similar devices: The electronics aren’t bulky.

The whole gimmick is compact (just 3 x 3 x 3.5-inches) and will fit inside a small box or paper bag. The operation is remote controlled. Simply press the on button and the cards shoot out; press off and the wheel stops. The keychain remote control will work up to 150 feet away so performer can activate the fountain at any time. **Compact, reliable, impressive!**

Necksnapper surrounded. Comes with two thick plastic chains, the secret gimmick and Roscoe's instructions, sketches, patter and performance ideas.

*"RoseRed and I call it the **Necksnapper** because that's the audience reaction—every single time!*

Ball Thru Hand

The performer displays a solid brass plunger and a solid steel ball. The ball is dropped into a brass cup, which is resting atop the back of the performer's hand. The plunger is used to press the ball "flat" ...or so they think. The plunger is removed and the ball has vanished, only to appear moments later as it falls through the performer's hand.

This may read simple, but the effect on your audience is staggering. This is just an impossible feat! A true piece of real magic that you will use often. Hand polished and fitted for beauty and precision.

Comes complete with brass plunger, cup, steel ball bearing and detailed instructions. Resets in 30 seconds. Viking products give you the power to create miracles with their precision. **Made in the USA.**

Truly Baffling

Magic Squared

Andi Gladwin's highly acclaimed close-up and parlor masterpiece takes the classic Magic Square to new heights. Many performers close their show with the Magic Square—and it's a worthy closer. But imagine how much stronger it is with **Magic Squared**.

You show a stack of cards with numbers and you use a selected number to perform the magic square WITH the number cards.

Every row, column and diagonal adds up to the chosen number. You then show dozens of combinations of numbers that add up to the chosen number.

Every other Magic Square routine ends there to great applause. But where other Magic Squares end, **Magic Squared** is just getting started. You turn the board upside down to show that the same cards now add up to a second randomly selected number, creating a unique, incredible performance piece that is, truly, hard to top.

No memory. No mathematics. No sleight-of-hand. Perfect for close-up or parlor audiences. A self-working, double magic square!

Klaus The Mouse

Here comes the cutest trick you ever owned, **Klaus The Mouse**. Don't underestimate this effect! Women love the mouse because she is so cute, men like the mouse because they want to figure out why it works and they have no clue.

Klaus The Mouse is a trained wind-up toy that will find any selected and signed playing card. Klaus will not only stop at the spectator's card; at your will the mouse pushes away all other cards above it! Or it will immediately kick out the chosen card from the card spread!

Don't take this innocent looking wind-up mouse for a Chinese kid's toy. The mouse is cleverly gimmicked and works with any Poker Deck! The effect is easy to perform, the mouse can be examined as well as the spectator's freely chosen card. You will love your cute new assistant. The mouse comes in random colors.

Gary Plants Presents...

Magnetized Cards

Cards are placed onto the magician's palm in a circular pattern.

The hand is slowly turned over and the cards mysteriously cling, as though magnetized, to the magician's palm.

When the magician desires, all the cards immediately drop from the palm to the table.

"Your version and solution of the classic magnetized cards is the best! I am sure Leipzig would not only be fooled by it, he would be proud to use it! I am putting this one into my repertoire NOW! Thanks!"

Robert-Houdin's Protean Pack Of Cards

Three cards are selected by three spectators—the King of Hearts, the Jack of Spades and the Ace of Hearts.

When the King of Hearts is placed on the bottom of the deck, the entire deck is now seen to consist of nothing but King of Hearts. Then, the Jack of Spades is placed on the bottom of the deck and the entire deck consists of nothing but Jack of Spades. This is repeated once more with the Ace of Hearts. At the end, all of the cards are once again seen to be ordinary.

Magical Miracles

Muckless Muck

Created by Jared Kopf and handmade by Gary Plants (enough said). A special card that beats any specially made card I have seen in my 40 years of magic! A wonderful routine that is of the highest thought out routine as well!

The card is based on the brilliant ideas of **Charles Jordan and Gaetan Bloom.** Over the years, several magicians have employed similar gimmicks

for various card routines, but none have utilized the wonderful attributes of the Jordan/Bloom principle!

Phase 1 is a guileful pseudo-mucking demonstration that requires nothing but an ordinary deck of cards! **Phase 2** apparently repeats Phase 1, but actually uses the gimmick to deliver what **Jon Racherbaumer** called an "eye-arresting version of the last trick of Dr. Jacob Daley"! If you are a card lover, you will want this effect!

Chameleon Deck

The magician displays a pack of playing cards to the audience by riffing it. All cards are shown to be different and blue-backed.

He takes the top and the bottom cards from the pack, waving those three times to show that all the other cards have turned identical! He then shows that the backs of all the cards have changed from blue to red. All the card fronts and backs have changed! To finish, the magician quickly reverts the entire deck back to a regular blue-backed deck of playing cards. The trick resets instantly and can be repeated immediately. Very easy to do.

Gimpy Magic Presents...

The Case Of The Curious Cubes

This one is going to be HOT for a long time! **Gimpy is BACK!** And his latest miracle is getting a lot of attention! **Stevens Magic Emporium Exclusive Item! Based on the Eric Lewis original.** We have taken this vintage effect and completely revamped it. All new mechanisms make this new version even more of a fooler, and it can now be done close-up!

A wooden cabinet is shown with the doors open in the front and the back so the audience can view completely through the case. Twelve cubes are shown with playing card pips on some of their sides. A card is freely chosen—NO FORCE. The blocks are placed randomly in the cabinet and the doors are closed. The card is now revealed and the doors are reopened to show that the cubes have been magically rearranged to depict the chosen card! The blocks are then pushed onto the table and may be examined. The blocks are solid hardwood, and the 8 x 12-inch cabinet is made of quarter sawn black walnut with maple accents. This effect is built to last and finished with a hand-rubbed oil finish for which Gimpy's products are known.

As each item is hand crafted, availability can be scarce. **Note: This item is not eligible for any discounts, promotions or coupons.**

The Spirits Have It!

SME
EXCLUSIVE!

Spirit Bulb

The Magic Light Bulb has been one of the best selling effects of all time. But there is as we all know, nothing in the “mid-price” range for this utility item—until now! Many of us would love to own Labco, Pro-Mystic and Cesimal products... For good reasons—their quality is exceptional. But what has been missing is a line with price points that are more affordable and still have a degree of quality and dependability to them.

The **Spirit Bulb** (AKA Magic Light Bulb), is a perfect balance of quality and price. It features remote control capacity. Granted it doesn't have all the features of the higher priced models, but in its most basic form—it does the same thing. So, we are excited to announce this product, at an incredible price when you consider what you get. This is perfect for any haunted or seance theme.

The bulb features real time “on/off” mode, and the performer also has the option of making the bulb blink on and off. It's a good size bulb—so visibility isn't a problem. It illuminates very well, even in a well-lit room, it's easy to discern the bulb is illuminated. Better yet, turn the lights down a bit and you will get an exponential return in brightness. Easily rechargeable! Operates via Remote Control.

Comedy Magic

Japanese Egg Cup

A great comedy prop for children's shows. Magician invites a spectator up to help and places a magic hat on his head. Next an egg is cracked into a clear bowl and stirred. The magician asks if anyone is thirsty, gesturing to the audience if they would like a drink of raw egg! The magician picks up an aluminum tumbler and pours the

contents of the clear bowl containing the egg into it. Then he takes the hat off the boy and turns it up, grabs the tumbler (that now has the egg), and long pours it straight into the hat! **You can actually see the egg going into the hat.** The magician looks inside the hat and makes a huge grimace. Performer gestures toward the spectator trying to put the hat back on his head - **but the spectator will have none of it.** Magician walks into the audience asking if anyone else would like to wear the magic hat – all squirm away from the magician. Finally the magician wonders what all the fuss is about and shows the hat completely void and dry and puts it on his own head proving it is a magical hat!

This trick is practically self working. The handling is natural and easy to do. The cup will not tarnish or rust. The performer may present this without a helper. The hat may be borrowed. The hat is non-gimmicked. Allows for other routines with other liquid items, not just eggs.

Note: This prop does NOT come with a hat, only the professional high-quality gimmick manufactured in Japan. **You can buy the Fez Hat shown in the photo above,** or use your own hat.

Well Constructed—Exclusives

Cagliostro's Key aka Spirit Key

Once performed and handed to the spectator, it may be closely and fully inspected. There is absolutely nothing to find, no seam, no pinholes, no weld joints, nothing! The key is perfectly balanced for the Haunted Key move forward as well as backward and is gaffed for the “twisting” effect. This will badly fool those “in the know”.

The key is $4 \frac{9}{16}$ inches (116 mm) and the bow is $1 \frac{1}{8}$ inches wide. And weighs 1.3 ounces. It comes in a beautiful red velvet jewelry box with the proper “**resetting tool**”.

The routine is amazing. The performer first causes the key to turn over in their hand

during their favorite routine. (With practice you may even cause the key to turn over in the spectator's hand!)

This is where the similarity ends. At this point the artist asks the spectator to rub the perfectly aligned key on the barrel and slowly the bit twists 90 degrees from the bow. Immediately the key is handed out and spectator absolutely can find nothing out of the ordinary, except a sold, twisted key!

Great close-up effect! Carry in your pocket—ready to perform at a moment's notice. Excellent craftsmanship. Made in Europe, quality magic.

Merlin's Magic Elixir

The performer removes 10 marbled blocks of wood from a beautifully decorated hardwood box. The pieces form a rectangle around which a white frame fits exactly. As he puts the puzzle together, he tells how he was sold the puzzle plus some very expensive magic elixir, which was supposed to be necessary for solving the puzzle. He solved it without taking the elixir—only to be told that he was missing a piece! He added the piece and still solved the puzzle without the elixir! But, there was yet another extra piece. So, he took that piece and, once again, solved the puzzle without the elixir. So, why did he need the magic elixir? He has added two pieces to the puzzle—and it

is still exactly the same size! The rectangular frame still fits around the puzzle! How in the world is this possible? In order to find this out, you will probably need to take a couple drinks of that magical elixir! **More than a puzzle, it's a magical effect as well!**

Here's what you get: The beautiful wooden drawer box (non-gimmicked), the puzzle, a white cardboard frame and exceptionally detailed instructions with frame-by-frame illustrations and highly entertaining story. Translations by Bill Palmer.

Magicland Presents...

Back Drop

Back Drop is a great visual effect that really will cause a great deal of unusual faces from your spectators as you perform it.

Magician has a spectator choose a card and it is returned to the deck—the magician is going to find the card in a completely innovative way. Holding the deck, he bangs it down onto his other palm, repeating this gesture a few times and incredibly the back of the cards start to fall down – visually melting! The rest of the card backs are shown and they, too, are melting away, with one exception! As the magician fans through the backs of the melted and distorted cards, there is only one card that hasn't melted! It is turned over and is the spectator's card!

No Difficult Sleights. Custom Crafted Deck by Ton Onosaka. **Only available in RED back Bicycle Only.**

Tommy Wonder's The Squeeze

The magician has a BIG problem! He has this poker-sized Bicycle deck, and is handed a miniature card box from a spectator! The spectator says, *"If you're a real magician you could make that poker sized deck fit into this miniature card box!"* The challenge is on, and the magician, while nervous, prepares to "magish!" Giving it his best, he starts to squeeze the card deck, trying to force the cards inside the approximately 1/3 smaller card box. This goes on for a bit—understandably and finally, the magician loses his stamina and when his hands move away, what is revealed is amazing. Half the deck has actually been squeezed and morphed into the tiny card box and the other half remains poker-sized! *"But the job is not finished,"* the spectator yells! The magician gathers up his remaining strength and, to the amazement of all, actually finishes the job and closes the lid to the small box that now magically houses a poker-sized deck. Comes with everything you need to perform this effect!

Bounce No Bounce Balls

When you open the **Bounce No Bounce Balls**, you may think you've been tricked—like we've played a mean trick on you. Two black rubber balls look and feel the same, but try bouncing them. One rebounds in a most lively manner while the other ball is as bounceless as a piece of clay. It's not a trick—the balls are made out of two different types of rubber. One ball is elastic, which bounces back. The other ball, however, is inelastic and lies lazily on the floor. Use the **Bounce No Bounce Balls** to demonstrate and explore the properties of potential and kinetic energy. Ages 8 and up.

Blind Sight

You can perform a variety of mind blowing tricks with this special, custom made gimmick. Three poker chips (\$10, \$50, \$100) are placed face down on a table. A spectator freely switches position of the poker chips, and then puts one of

them into the brass box without seeing the value on the chip face and puts the lid on. Now two chips are left on the table. The spectator is asked to hold the higher value poker chip in the right hand, and the lower value one in the left hand. Then the performer tells the value of each poker chip in the spectator's hands and in the box! Comes complete with brass box, 3 poker chips and detailed instructions sheet in English and Japanese languages.

Kreis Magic Close-Up Wonders

Unbalance

The performer stands two decks of cards on their side and gently balances a toothpick across them. Now, he carefully removes a deck from under one end of the toothpick. The toothpick remains balanced on the one remaining deck! A spectator is allowed to tap the point of the toothpick making it fall off the deck. **Now, no matter what they try, the spectators cannot repeat the feat!**

"I love this close up miracle! You cannot believe that a tiny toothpick can be gimmicked, but it is. Don't expose it...It's too good!" --Joe Stevens

Cointum Tunneling

The magician shows a clear small container and takes off the lid. There is a coin inside. He picks it up and screws the lid onto the container. He then slams the lid with the coin. As a result, the coin immediately penetrates into the container. You can give it to a spectator to take out the coin from the container.

Notes: Does "not" come with coins—you can use any coins. This is a "good thing" as it allows you to use not only your own country's coinage, but also the type you wish as well.

Chain Thru

(With CD Explanation)

A small chain, a nut and bolt are given to a spectator. The nut and bolt have holes drilled through them for the chain to pass through. The spectator is asked to thread the bolt through the nut and then place the chain through the hole. The spectator is then asked to turn the

bolt and thread it further through the nut. The chain won't allow it! The spectator cannot make it turn. The magician then takes the chain, nut, and bolt back from the spectator and threads the bolt on thru!! This effect happens right in front of the spectator's eyes! Includes Instructional CD-ROM containing both a performance and explanation of the effect. **Limited quantities on this item!**

Perfect Link

*A clever close up miracle! Easy to do!
Entertaining! A real penetration!*

The performer has a spectator thread a ring onto a ribbon. He holds the ends of the ribbon up as the performer covers the ring with a handkerchief and ties it to the ribbon with a bowknot. The handkerchief is removed and the spectator is asked to pull the ends of the ribbon. The ring drops right off the ribbon! Ring and ribbon are handed out for examination. Amazing.

Safety Box

A small round brass box is shown with a brass bolt through a hole in the center. The performer unscrews the nut, removes the bolt and hands the box to a spectator. The spectator removes the lid to find a coin filling the bottom of the box! There is no way that the spectator can get the bolt through the box with the coin inside!

Stevens Magic Exclusive

Oracle Pad

Imagine what in the past wasn't imaginable in the world of magic and mentalism! Our friends at Feather Touch Magic in Japan have provided just that and we are very excited to be able to offer this product exclusively in the US!

This apparatus is a way for you to have a person (or persons) think of any 2,3 or 4 digit number, or a shape (like a circle, square, triangle or rectangle) or even a person's name per chance! You ask that person(s) to concentrate mentally on their selected impression. You open up a high-quality notepad (not something cheap, but made of high quality leather) and you begin to write—than you close the pad firmly. You then ask the spectator (or spectators if more than one was involved in creating a number) what their impression was.

They verbalize that the number they chose was 2520! A totally impromptu number thought up either individually or in a group. What happens next is the equivalent of one of the most powerful effects that demonstrates real psychic powers. You open the note pad, to clearly show the number that is featured on that pad to be 2520!

As an additional “kicker” you tear off that sheet and hand it to the spectator(s) as a memento to this truly remarkable feature of psychic ability.

What you have is a marriage of an uncanny effect coupled with professional quality that a top executive would expect in terms of materials and constructions.

IMPORTANT POINTS:

- 1) No swami gimmick (nothing attached to hand).
- 2) Never touch the writing surface after predicted (shut the pad's cover).
- 3) Written prediction always faces to spectator after pad's cover is shut.
- 4) Very fair and clean prediction!

NOTE: Optional Availability: Refill pad for Oracle Pad is A7 size pad. The size is 74mm x 105mm.

Fearson Magic Presents...

Ultimate Levitation Pen

Steve Fearson has created the first Sharpie designed specifically for levitation.

You hand the pen to a spectator and they can use it to write on a card or bill. You take it back and IMMEDIATELY cause it to levitate in the most beautiful horizontal position, with absolutely no fussing or fidgeting trying to find the center.

This is EASY. You could literally hook in PERFECTLY with your eyes closed. There is no tying. Fearson's new connection method eliminates that completely! No tape, wax or other sticky stuff for those eagle-eyed spectators to spot... even up close! Because the pen is so light, it responds as if it were really floating. The reduced weight also allows you to use the very thinnest threads available if your conditions require it.

Along with the specially gimmicked Sharpie, you will receive everything you need to perform, including access to a comprehensive online tutorial video featuring Steve Fearson, and one original Vectra Thread Bullet containing over 40-feet of super strong invisible thread (\$10 value). Steve teaches two hookups on the video, and this product is suitable for all skill levels from absolute beginner to pro. No prior knowledge of thread work is required.

You can replace the thread as easily as tying your shoelaces! If you have given up thread because of frustration... the **Web Spinner** will make you fall in love again. Invisible Ice Cubes

Great for close-up or parlor!

Imagine, if you can, a bowl of regular water with nothing in it. Performer reaches in and produces a handful of large ice cubes! You have to see it to believe it! I did and was shocked.

My wife, Martha, looked at me as though I was crazy when I asked her to reach into the bowl and hand me some ice cube! She said, *“There were NO ice cubes in the bowl!”* I said, *“Just reach in and hand me some.”* **She did and laughed out loud in disbelief as she came out with a handful of ice!**

Invisible Ice Cubes are reusable! You just cannot see them in the water. You receive plenty of the secret ingredient to make a very generous number of the **Invisible Ice Cubes!** It is a stronger impact if you use a glass bowl so spectators can see from a distance that there are NO ice cubes in the bowl. The ice cubes are the large size cubes (not little ones). No, the magical ice cubes are not eatable! They are for professional entertainment only! This item is considered an accessory like, silks, sponge balls, mouth coils, flash paper, etc (all available at Stevens Magic). A lot of fun for a small price!

Psychic Tipping-Ouija Table

For Mentalist, Psychics & Magicians

A beautifully constructed special table out of select hardwoods!

Imagine a small group of spectators clustered around a 12 sided table top. Spectators are instructed to place their fingertips on the table top with little fingers touching the adjacent spectators little fingers. The magician-psychic informs them to concentrate on a question as he invokes the spirits from the great beyond to give a sign-answer to the question!

Can the spirits actually return? Slowly, the table begins to move, up and tips! Have the ethereal spirits made their presence know? **The tips answer the question with “one tip for yes and two tips for no”!** The magician-psychic does NOT control the table

The principle of the table tipping is accomplished by the famous findings of William Benjamin Carpenter, who coined the

term **“IDEOMOTOR ACTION”** to explain such phenomena. **IDEOMOTOR ACTIONS ARE UNCONSCIOUS, involuntary motor movements performed by people because of prior expectations, suggestions or preconceptions! It is a psychological subconscious action! (Like the swinging pendulum effect).**

Louie Gaynor’s Psychic Tipping Table makes this performance easy as it is specially designed for the tipping! The spectators themselves are the ones who cause the table to tilt up and down! Can also be used with the **Ouija Planchette**, (that comes with it) for Ouija board performances. A great effect for stage, parlor, family room performances.

Comes complete with carrying case and detailed instructions.
